FROM THE FOUNDER'S DESK

A Note from Our Founder

Mr. Suresh Agarwal
Founder

DEAR PARENTS,

October at CCIS Green Campus felt like several months folded into one. Our students danced through Navratri in the daytime and again with their families at RaasRatri. They won on courts, in chess halls, and on tracks across Gujarat and well beyond it. And on the last day of the month, the school came together for Kalrav 3.0, our Annual Convocation and Concert. Like every year, this year's annual festival gave me so much to be proud of.

What stays with me is not the medals, though there were many, each earned with early mornings and long practice. It is that a child can stand on a stage in front of the whole school, or at a national tournament far from home, and still look like themselves: curious, steady, and happy to be part of something bigger. A school can only grow that confidence patiently, with teachers who keep learning and parents who stay close.

This month, we also began a series of parent webinars, led by our Principal, so that we can talk with you more often about what is happening in your child's learning and where we are heading. I hope you will join us each time. There is a great deal still to share from Kalrav, and we will bring it to you in the November issue.

Warm regards,
Mr. Suresh Agarwal

PARENT PARTNERSHIP

This month's Child-Parent-Teacher Dialogue, held over a few days across grades, was more than a meeting. It put the child at the centre of a three-way conversation between family and school.

The Child-Parent-Teacher Dialogue was successfully conducted with active participation from parents. The conversations covered each student's academic progress, strengths, areas for improvement and overall development, giving families and teachers a shared picture of the child. Meaningful communication and collaboration achieved the objective of the dialogue and strengthened the school-parent partnership for the holistic growth of every child.

Academic progress

Where each child stands, and how learning is going.

Strengths and areas to grow

What the child does well, and where to improve.

Overall development

The whole child, with family and school working together.
