Guru Purnima

गुरुर्ब्रह्मा गुरुर्विष्णु गुरुर्देवो महेश्वरः
गुरु साक्षात् परब्रह्मा तस्मै श्रीगुरवे नमः

Cosmos Castle International School
believes in inculcating traditional values in the students.
Kindergarten children celebrated Guru Purnima on
Wednesday, 13th July. .

The day began with a happy note with children singing the Guru Stuti and aarti. This was followed by the students seeking the blessings of Director Ma'am, Principal Ma'am and all the teachers by applying tilak and touching their feet.

Fun with Math

Fishing for the Number

Students fished for numbers by carefully lowering the "rod" until the magnet catches the paper clip and they reel it in. Repeat with other numbers until all the numbers are caught for a game that's so fun, it doesn't even feel like math practice!

Fun with Math

Number Match

While doing this activity, children practiced counting while learning number recognition and one to one correspondence with paper cup numbers. These skills are important for laying the foundation for higher math concepts.

Fun with Math

Swat the Correct Number

The number cards were spread out on the table. Students enjoyed using the fly swatter to identify numbers. The numbers were called out by the teacher. The children had to swat the number called out. The child that swats that number the fastest took the number.

Fun with Math

Dino Crunch

3D Shapes is a great way to introduce kindergarteners to early geometry concepts. Ready, set, crunch! These Kindergarten dinosaurs are hungry for 3D shapes, but they need help differentiating between spheres, cylinders, cubes, pyramids, and rectangular prisms. dinosaur identify the correct shapes to eat.

Fun with Math

Ten Frames

Building Number Sense with Tens Frame-It made learning fun. The Frames and counters provided children with a visual of numbers and gave them experiences working with numbers. They weren't simply just memorizing numbers or counting without meaning. It showed them the value of numbers

Fun with Math

Number Match Wheel

This was a hands-on and engaging way to practice number sense concepts. The learners had to clip the matching number value on the wheel.

Fun with Math

Colour Sorting Activity

Students enjoyed sorting colors in the different color bowls alongwith number counting

Fun with Math

Ally the Alligator

Ally the Alligator likes to eat only the big numbers
Children mastered Big and Small numbers using Ally the Alligator Puppet

Public Speaking

With a vision to enhance and pioneer public speaking skills in our students, 'Public Speaking Competition' on the topic-I AM SPECIAL was organised in the kindergarten Section.

Public Speaking

This opportunity gave each child to be the centre of attention in the class as while they spoke a few lines about how they were special. The main aim of this activity was to develop their social, emotional and language skills, thus building their confidence and self-esteem.

Clay Modelling

Shape Your Imagination

Little artists hard at work

Yoga Time

Family Activity

Children used buttons, marker, glue to create a picture of a family. They glued buttons at relevant height. Then used marker to draw on the stick people bodies.

Puppet Making

The purpose of the puppet was to create interaction, fun dialogue and even an element of surprise into our play and learn activities. Children made puppets out of old socks and yarn. Playing with puppets helped children develop their speaking as well as listening skills.

Best Out of Waste

Reduce, Reuse, Recycle and Reinvent for a greener tomorrow!

We believe in ingraining in our children, a love for nature and a responsibility to protecting it. We invited parents to help their child design and create something new from waste and The most creative exhibits were awarded certificates
